### 1. Summary of Operating Results

#### (1) Summary of Operating Results for the Semi-annual Period

During the semi-annual period of the current fiscal year (April 1, 2024 to September 30, 2024), the Japanese economy showed signs of recovery in economic activities due to increased corporate exports and demand from inbound tourists. However, the business environment remains challenging due to the risk of economic downturn caused by sluggish overseas economies and soaring resource and other prices, as well as the effects of unstable financial markets.

In the environment surrounding the childcare support business, of which our group is a part, the government has presented the "Children's Future Strategy," which outlines the specifics of measures to address the accelerating decline in the birthrate, with different dimensions.

Specifically, in order to develop a structure that enables parents use childcare facilities with a peace of mind, this fiscal year, the government changed the standard for the number of 4-5 year old children per nursery staffs as an improvement to the standard for the first time in 75 years. In addition, various measures to deal with the declining birth rate have been gradually implemented, such as securing childcare workers through further improvement of treatment and the introduction of tests of the "Universal Childcare System" to enable all families to use childcare facilities regardless of parents' employment status.

In addition, the number of children on waiting lists at school clubs is increasing, the development of a childcare environment is becoming an issue, and the Tokyo Metropolitan Government is taking steps to create new "Tokyo-certified school clubs" to promote the development of an environment conducive to childcare. As such, the social role of childcare support services is expected to become increasingly important.

As described above, while the government and local governments are promoting various measures to improve childcare environments and eliminate waiting lists for children in school clubs as part of measures to cope with the declining birthrate, competition to acquire more children is intensifying in regions where the birthrate is declining at an accelerated pace. In this difficult environment, we believe it is necessary to implement various measures to create childcare facilities that continue to be selected by customers, to improve efficiency through structural reforms, and to develop new businesses and generate earnings as quickly as possible.

In view of the progress of various measures and changes in the external environment, we have continued to strengthen our efforts since the previous fiscal year under the targets of "Achieve growth and establish a competitive advantage," "Reform our profit structure," and "Reform our management base" to further improve and reform our competitive superiority and management foundation.

To achieve the goal of "achieve growth and establish a competitive advantage", we will develop new businesses for mediumto long-term growth, actively pursue M&A to expand existing businesses and new business domains, expand learning programs to capture competitive advantages (such as STEAMS childcare and after-school programs), develop learning programs (such as English, physical exercise, music, and dancing schools), and expand our "bilingual nursery school" programs with native English-language teachers and "Montessori-method education nursery school" programs as a differentiating strategy. We have also introduced our unique new societies-on programs, such as the "Door of Future" occupational experience event, and the "Door of Nature" hands-on learning, which is away from parents and touches local cultures and traditions. In addition, through a dominant strategy in collaboration with nursery schools and school clubs and children's houses to establish an integrated childcare support system for infants, early childhood, and child-rearing, we are actively promoting new contracts to double the current number of school clubs and children's houses to 200 facilities, and are strengthening our efforts to "creating facilities that would continue to be selected by customers" in each region.

In addition, as new businesses, we are aggressively pursuing the expansion of our domestic and overseas specialist personnel placement and temporary staffing business, the expansion of our real estate business in conjunction with various other businesses, and the launch of an overseas childcare support business with a view to global expansion, in order to expand our operations and generate earnings.

Regarding "reform our profit structure," we are reassessing our business structure. We are addressing redundant tasks, streamlining operations through ICT integration, optimizing staffing, and achieving operational efficiency through the rectification of inefficient operations and processes using data utilization. We are also committed to reducing indirect costs and further improving our operations through business process reforms and system implementations.

As for the "reform our management base," the key to our business is people. Therefore, we will enhance our personnel education and training structure. At the same time, we will develop human resources and improve employee engagement to lead to a change in awareness. Our group is working to revitalize our organization by enhancing our human resources strategy (expanding training and renewing our corporate culture), strengthening Group governance and establishing a management system.

Furthermore, with regard to the business alliance with Duskin Co., Ltd., we have established a committee to study the collaboration between the two companies, and through the effective use of their management resources and know-how and mutual cooperation, we will create new services to solve social issues related to childcare support and the problems of customers and guardians, and create measures to realize a more affluent lifestyle.

As part of our Group's further growth strategy, we will actively pursue M&A to create new businesses, achieve early profitability, and expand existing businesses. In this way, we are striving for sustainable growth while realizing our Group management philosophy of "Through child care support, we will contribute to creating smiles for everyone."

In the semi-annual period of the current fiscal year, we established 2 nursery schools (1 of which was converted from a Tokyo-certified nursery school to a certified nursery school), 4 childcare centers that were converted from certified nursery schools, 17 school clubs and children's houses, and 2 community centers. We have established a total of 20 facilities, excluding those that were converted to certified nursery schools and childcare centers, and have promoted them as planned.

We have also been newly commissioned to provide "Club Business Coordination Services" related to childcare for Shibuyaku After-school Club, and will provide various services by utilizing our Group's educational know-how in English, gymnastics, music, and dance.

#### (Other Contracted Business)

Shibuya-ku After School Club "Club Business Coordination" Services

\*1: On April 1, 2024, Asc Nishi-kokubunji Nursery School was converted from a Tokyo-certified nursery school to a licensed nursery school.

\*2: On April 1, 2024, the following certified nursery schools were converted to certified childcare centers: Asc Kodurushinden Childcare Center, Asc Nagamachiminami Childcare Center, Asc Gotenhama Childcare Center, Asc Wani Childcare Center.

\*3: As of March 31, 2024, Asc Bilingual Nursery School Eifuku, a Tokyo-certified nursery school, was closed. In addition, following school clubs were withdrawn as of March 31, 2024 due to the expiration of the contract: Predy Toyomi, Taisho Elementary School After School Kids' Club, Wakuwaku Yanagida Hiroba, Yanagida Midori Club No.1, and Yanagida Midori Club No.2.

As a result, the Group came to have 205 nursery schools, 4 childcare centers, 96 school clubs, 13 children's houses, and 2 community centers, making a total of 320 childcare facilities as of September 30, 2024.

As a result, for the semi-annual period of the current fiscal year, the Group's net sales were 19,251 million yen (up 6.6% year on year), operating income was 2,720 million yen (up 34.6% year on year), ordinary income was 2,735 million yen (up 39.2% year on year), and net income attributable to owners of parent was 1,940 million yen (up 51.7% year on year).

Net sales increased by 6.6% year on year. Despite a decrease in subsidies to combat rising prices and other issues, this growth was due to an increase in the number of enrolled children compared to the previous period, as a result of efforts to "creating facilities that would continue to be selected by customers" such as the expansion of the early childhood learning program, the opening of new facilities and contracts, and the change in the number of children per nursery staff (revision of standards for assigning nursery staffs for 4-5 year old children in care) implemented as drastic countermeasures against declining birth rates.

In terms of operating income and ordinary income, with regard to the increase in the number of children through various measures aimed at "creating facilities that would continue to be selected by customers", the response to the maximization of subsidies and the change in the number of children per nursery staff (revision of standards for assigning nursery staffs for 4-5 year old children in care) implemented as drastic countermeasures against declining birth rates, we had already increased the number of nursery staffs assigned to improve quality of childcare services, and the impact on our business is significant, despite a decrease in subsidies to combat rising prices and other issues and an increase in personnel costs due to improved employee treatment, etc.. As a result, operating income and ordinary income increased by 34.6% and 39.2% year on year, respectively, achieving significant profit growth.

Net income attributable to owners of parent increased significantly by 51.7% year on year. This was mainly due to the opening and entrusted new facilities, an increase in the number of enrolled children and change in the number of children per nursery staff, an increase in profits through various measures to maximize subsidies, and the recording of compensation in extraordinary income related to the transfer of the head office in line with the redevelopment of the area where the head office is located, as described above.

#### (2) Summary of Financial Condition in the Semi-annual Period

As for the financial position at the end of the semi-annual period of the current fiscal year, the total assets amounted to 34,722 million yen (down 2,167 million yen from the end of the previous fiscal year).

Current assets totaled 23,492 million yen (down 1,881 million yen), mainly reflecting decreases of 1,416 million yen in cash and deposits and 366 million yen in accounts receivable.

Non-current assets totaled 11,229 million yen (down 285 million yen). This was mainly due to decreases of 211 million yen in buildings and structures and 107 million yen in long-term loans receivable.

Total liabilities amounted to 17,281 million yen (down 3,499 million yen).

Current liabilities totaled 8,642 million yen (down 1,766 million yen), mainly reflecting an increase of 102 million yen in reserve for bonuses, while there were decreases of 1,373 million yen in accounts payable – other, and 295 million yen in others.

Non-current liabilities totaled 8,638 million yen (down 1,733 million yen). This was mainly due to a decrease of 1,771 million yen in long- term loans payable.

Total net assets at the end of the semi-annual period of the current fiscal year was 17,440 million yen (up 1,332 million yen). This was mainly due to an increase of 1,257 million yen in retained earnings.

#### (3) Consolidated Earnings Forecasts

The full-year consolidated earnings forecasts have not been revised from the announcement on May 13, 2024, but actual results may be different from the forecast according to the changes in business situations, etc.

If there are any changes, the Company will disclose them properly.
